

Section B Audiometry Audiometers

Amplivox 170 Automatic Audiometer

- Flexible and reliable audiometer offering both automatic and manual audiometry.
- Supplied with mains adapter, carrying case and patient response switch
- Hearing level print-outs with specified printer
- Results analysis with Audibase software.
- Unique timesaving threshold retention feature.
- Totally portable (weighs 700g)
- -10 to 100 dBHL intensity range
- Silent operation tone present function
- 240v mains operation

All Amplivox audiometers are CE marked and conform to the relevant sections of the International audiometric standard EN60645.

AU170 Amplivox 170 Audiometer **£1450.00**

Optional accessories for Amplivox 170:

AU170.4	Designated thermal printer	£245.00
AU170.5	Audibase software	£605.00
AU601	Audiocups	£105.00

Amplivox 116 Screening Audiometer - 2011 model

- All purpose audiometer for primary care, school and industrial use
- Unique time-saving threshold retention feature.
- Cost effective price
- Totally portable (weighs 650g)
- Hearing level print-outs with optional printer
- Pure, pulsed, continuous and warble tones
- -10 to 100 dBHL intensity range
- Silent operation tone present function
- Supplied with mains adapter, carrying case and patient response switch

AU116 Amplivox 116 Audiometer (2011 model) **£795.00**

Optional accessories for Amplivox 116:

AU116.4	Designated thermal printer	£245.00
AU116.3	Battery power function	£105.00
AU601	Audiocups	£105.00

Amplivox Calibration Services:

All audiometers should be calibrated at regular intervals.
To arrange the calibration of an Amplivox audiometer or tympanometer please call Amplivox on 01865 842411

All Amplivox audiometers are CE marked and conform to the relevant sections of the International audiometric standard EN60645.

Interacoustics AS608 Audiometer

Ideal for clinics and school nurses

Portable robust lightweight audiometer suitable for measuring air conduction thresholds in schools, industry and wherever quick hearing evaluations are performed.

- Robust construction
- 11 frequencies 125Hz to 8kHz
- Customise frequency test selections
- Output levels from -10dB to 100dBHL output
- Pure tone, warble tone and pulsed tone
- Battery status indicator
- Carrying bag
- Uses standard AA batteries

Options:

- Patient response switch
- Noise reducing headset
- Ext. power supply

Also available as AS608E, including Hughson-Westlake test and patient communication.

AWK-AS608	Interacoustics AS608 Audiometer	£865.00
AWK-AS608E	Interacoustics AS608E with Hughson-Westlake test	£1495.00

AWK-215	Patient response switch	£36.00
TS608	Mains adaptor	£96.00

Interacoustics AD226 Diagnostic Audiometer

Suitable for any stationary or portable application where diagnostic testing of air and bone conduction thresholds is performed.

- 125Hz - 8000Hz
- -10dB to 120dBHL output
- Air and bone conduction
- WN and NB masking
- 5dB and 1dB attenuators
- Pure, warble and pulsed tones
- Automatic threshold test
- SISI and Bekesy tests
- Stenger and ABLB tests
- Tone in noise test (Langenbeck)
- Talk forward
- USB/RS232 interfaces
- PC on line monitoring available
- NOAH compatible
- Printing options via PC

Options:

- Insert phones
- Noise reducing headset
- Carrying case

AWK-AD226	Kamplex AD226 audiometer	£1695.00
AWK-E5A	E5A insert headphones	£275.00

AWK-ACC26	Hard carry case	£196.00
AWK-KSB25	Soft carry case	£60.00

Section B Audiometry Audiometers

Interacoustics PA5 Screening Audiometer

The Pa5 paediatric audiometer is a battery operated, fully portable free field audiometer for fast effective testing of children's hearing.

- Warble tones
- Narrow band noise
- White noise for easy detection
- Triangle light stimulation / reinforcement
- Extremely lightweight
- COR, APR and VRA
- One-hand operation
- Silent presentation buttons
- Standard AA batteries, with auto power indication

AWK-PA5 PA5 Paediatric Screening Audiometer **£649.00**

B3

Otovation Amplitude T-Series Diagnostic Audiometers

The Amplitude T3 is an automated diagnostic audiometer, where the audiometer is integrated with the patient response switch and is operated wirelessly from your Windows PC. The Amplitude T3 offers manual and automatic air and bone conduction testing, controlled and managed from the PC.

- Wireless air and bone conduction testing
- Flexible manual and automated testing
- Rechargeable battery or mains powered
- Portable and convenient for on-the-go testing
- Complete PC management of data and testing
- DC power adaptor, E5A insert phones PC software and USB Bluetooth adaptor included

AWK-ATT3 Amplitude T3 Diagnostic Audiometer **£1695.00**

Your local medical supplier is just a phone call away. See cover for full details

Tympanometers **Audiometry** Section B

NEW Titan Tympanometer

The new Titan is an outstanding portable middle ear analyser designed to make routine work of diagnostic evaluations. Wireless, portable, lightweight and robust with full PC and NOAH integration, allowing for

Overall Highlights

- Portable and lightweight
- Multiple operating options
- Complete clinical test battery
- Flexible printout with pdf capability
- Integrated and customised display and reporting
- PC integration and stand alone options
- Endless airflow pump design
- Low-energy consumption with simultaneous spare battery charging

Clinical Highlights

- Automatic and manual testing
- Data extraction
- Advanced research protocol settings available
- High frequency probe tones (678, 800 and 1000Hz) – optional
- Ipsi and contra acoustic reflexes
- 3 ETF tests: Intact, perforated and patulous
- Reflex decay
- Reflex latency

customisation of test protocols and ready access to complete clinical test batteries. Flexible print-outs and the ability to merge audiometric data for comprehensive patient reporting.

Reporting Highlights

- Customisable print-outs
- NOAH3 and OtoAccess compatible
- EMR integration
- Portable printer option

Create your Titan

- Desktop, wall-mounted or handheld
- Customisable test procedures
- Modular concept
- Protocol designer
- Versatile probe system
- Probe calibration
- Extension cords and shoulder box
- Available in screening, diagnostic and clinical versions

Please call for full technical specification on the different Titan models available, or to arrange a demonstration.

AWK-TITANS £2995.00

Titan S Screening Tympanometer. Single-hand operation

AWK-TITAND £3895.00

Titan D Diagnostic Tympanometer. Includes desk cradle / charger

AWK-TITANC £5495.00

Titan C Clinical Tympanometer. Includes desk cradle / charger

AWK-HFmodule £1195.00

High frequency 678, 800 and 1000 Hz tones

Your local medical supplier is just a phone call away. See cover for full details

Section B Audiometry Tympanometers

NEW Amplivox Otowave Tympanometer

- Fast, effective middle ear measurements
- Totally portable (380g)
- Intuitive use with on screen test information
- Ergonomic shape
- Programmable reflex tests:
 - Otowave 102-1: 1Khz
 - Otowave 102-4; 500Hz, 1KHz, 2KHz, 4KHz
- Optional printer
- Supplied with carrying case
- Disposable eartips available in various sizes - please call for details

Otowave102-1	Otowave Tympanometer 102-1	£1650.00
Otowave102-4	Otowave Tympanometer 102-4	£1800.00

Accessories for Otowave Tympanometer		
OW102.4	Designated portable printer	£245.00

Your local medical supplier is just a phone call away. See cover for full details
Prices shown are exclusive of VAT and delivery

Audiocups and Headsets

- Noise reducing enclosures to fit over headsets and reduce ambient noise when testing

Image shows enclosures fitted over headset

AU601 Audiocups - noise reducing enclosures **£105.00**

THD39 Replacement headsets **£210.00**

Please note that replacement headsets must be calibrated to each machine and it is therefore necessary for your audiometer to be returned for calibration and fitting of headset.

AW Spirit Tuning Forks

- Lightweight alloy tuning forks
- Precision frequency balanced
- Very reasonably priced
- Choice of 128Hz or 256Hz

G.650.00 AW Spirit 128hz Tuning Fork **£22.00**

G.650.01 AW Spirit 256hz Tuning Fork **£22.00**

**Tuning Forks**

G.600.00 Gardiner Brown Tuning Fork with foot, 128Hz **£24.95**

G.600.01 Gardiner Brown Tuning Fork with foot, 256Hz **£24.95**

G.600.02 Gardiner Brown Tuning Fork with foot, 512Hz **£24.95**

G.600.03 Gardiner Brown Tuning Fork with foot, 1024Hz **£24.95**

G.600.04 Gardiner Brown Tuning Fork with foot, 2048Hz **£24.95**

G.600.05 Gardiner Brown Tuning Fork with foot, 4096Hz **£24.95**

G.600.10 Gardiner Brown Tuning Fork, set of 6 in box **£175.00**

36.224.10 **£87.00**

Martin Rydel Seiffer Tuning Fork with adjustable frequency
