

Section E Disposables & Practice Sundries Syringes & Needles

Q-Stat® Auto Retractable Syringes

Revolutionary, retractable safety syringe specifically designed to minimise needlestick injuries associated with standard syringes.

With reported needlestick injuries estimated at more than 100,000 per year in the UK the Q-Stat® Auto Retractable Syringe virtually eliminates the possibility of blood spray, vein and tissue damage, bruising, etc.

- Easy to use simply operates in the same way as a traditional syringe
- The only user-controlled automatic retraction syringe available
- The luer lock allows for easy change and selection of needles for each procedure
- The safety technology is passive.
- Currently available in 3ml and 5ml sizes

**FREE sample available on request.
Call for details.**

QSTAT3	3ml Pack of 20	£13.50
QSTAT5	5ml Pack of 20	£13.50

E1

Q Stat Safety Syringe
www.qstat.com.au

Instructions for Use

- ⚠ Do not use 3ml and 5ml Q stat syringes with needles longer than 1½ inches (38mm)
- ⚠ Do not use 10ml Q stat syringes with needles longer than 2 inches (51mm)
- ⚠ Fluid may leak from needle after activation
- ⚠ Do not use with needle-less access ports
- ⚠ Do not use if packaging is damaged
- 🚫 Latex free
- 🚫 Single use device
Do not resterilize

Rx Only

1 Select the appropriate gauge and length of needle required and attach via the luer lock connection. Remove needle cover.

2 Prime the safety mechanism by depressing the plunger. You will feel a subtle click.

4 Administer medication in accordance with established protocols.

At the end of injection the safety retraction mechanism is automatically activated, no extra push is required.

5 Needle retraction occurs when full dose is administered and pressure is slowly released from the plunger. Syringe is disabled when fully retracted.

This product allows needle retraction to be initiated inside the patient, or outside the patient, according to your institution's protocol.

3 Draw up the medication in accordance with established protocol.

6 Discard immediately in nearest sharps container.

Caution: Reuse of syringes may cause cross infection

Spill Kits, Disinfectant Disposables & Practice Sundries Section E

RESPONSE Bodyfluid Kit - 2 Application

Effectively reduce the risk of cross infection & cross contamination when dealing with body fluid spills such as blood, vomit, faeces and urine by using a RESPONSE® body fluid kit.

This kit includes RESPONSEBeta™ disinfectant cleaner with its scientifically proven biocidal formula that kills viruses, bacteria, fungi, yeasts and spores; is SkinSafe™ and offers protection for up to 2 hours, along with RESPONSE® premium super absorbent powder, which comes as standard in all RESPONSE® kits from Kays, denoted by the purple packaging. This premium powder is up to ten times as effective as other brands of absorbent powder.

Contents:

- Yellow carrying case x 1
- RESPONSEBeta™ disinfectant spray (50ml) x 2
- RESPONSE® premium super absorbent powder sachet (10g) x 2
- RESPONSE® clean up pack (includes: instructions, gloves, oversleeves, apron, polypropylene scoop/scrape, biohazard bag, non-woven wipe, RESPONSEBeta™ disinfectant wipe) x 2

RES002	Response Kit	£16.36
---------------	--------------	---------------

RESPONSE Bodyfluid Kit Refill – 1 Application

- Refill kit containing RESPONSE Beta disinfectant spray 50ml
- Response absorbent powder sachet (10g)
- Clean up pack.

RES030	Response Kit Refill	£5.13
---------------	---------------------	--------------

RESPONSE® Premium Super Absorbent Powder

RESPONSE® Premium Super Absorbent is a revolutionary powder with an amazing capacity to absorb and deodorise up to 300 times its own weight.

When sprinkled onto the spill the fluid is almost immediately transformed into a manageable gel, for easy containment and disposal, making cleaning and disinfection easier and more effective, whilst the deodoriser removes any unpleasant odours.

- Non-toxic
- Non-corrosive
- Non-bleaching
- Biodegradable
- Convenient and economical
- Instant absorption
- Suitable for use on carpets

S07501PB	Response Powder 10g sachet, each	£1.21
S075012S	Response Powder 100g shaker, each	£9.12

ResponseBeta™ Disinfectant Cleaner

RESPONSEBeta™ Disinfectant Cleaner offers advanced protection benefits typically not found in a disinfectant product.

Like all RESPONSEBeta™ products it is a broad spectrum biocide effective against viruses, bacteria, fungi, yeasts and spores.

But in addition to this it is SkinSafe™, does not contain bleach or alcohol, is non-tainting, non-corrosive and odour free making it ideal for use in the food industry and childcare as well as high risk areas such as healthcare.

Advanced protection offers the following benefits...

- Broad spectrum biocide
- Cleans and disinfects
- Active for up to two hours
- SkinSafe™
- Alcohol and odour free
- Ideal for high risk areas

RES500/10	Response Beta disinfectant sachet wipe x 10	£2.95
RES500/100	Response Beta disinfectant sachet wipe x 100	£20.00
RES300	Response Beta disinfectant finger spray 50ml	£1.69
RES301	Response Beta disinfectant trigger spray 500ml	£3.38
